Hi.

Please clarify what "relocation of a drainage system" means in Part 8420.0420, Sub 2 (3) below:

[\(3\) Impacts to wetlands resulting from the relocation of a drainage system are not exempt under the maintenance provision in item A unless those wetlands are labeled farmed wetland, farmed wetland pasture, or wetland on a valid, final certified wetland determination and the impacts to those wetlands constitutes NRCS authorized maintenance.](#)

And, can you tell me roughly when the BSA boundaries may change in 2025?

Thanks,
Mark Gamm
